---

### **Retirement plan expert Michael Grimme joins Park + Elm Investment Advisers**

Carmel, Indiana, November 1, 2019 Park + Elm Investment Advisers, a Carmel based investment advising firm, has partnered with ClearPoint Financial Partners and Michael Grimme to bring retirement consulting solutions for employers to create more effective and appreciated retirement plans.

Mike has over 25 years of institutional retirement plan experience. He is the author of “An Employer’s Guide to a Retirement Plan that Works” and developer of Impact Retirement. Mike’s mission is to bring “real” retirement plan experience directly to employers and their employees.

401k’s and similar employer sponsored retirement plans have become increasingly complex for employers to manage and often have hidden or confusing fees that eat away at employee savings. Mike works with employers to identify and renegotiate hidden fees, spark employee participation and guide fulfillment of fiduciary duties to the plan.

Mike grew up in Indianapolis and graduated from Indiana University with a BS in Business and Computer Information Systems. He lives in the Seattle area with his wife Melanie and children Caroline and Matthew.

Park + Elm Investment Advisers is excited to partner with Mike and his team in the launch of this new division.
